INTRODUCTION

Statistics in recent years have shown that there is indeed an increase in the number of female students enrolled in Science, Engineering and Technology courses at the universities. Nevertheless, the number of Women Scientists, Engineers and Technologists at the top management decision-making level at government sector and private companies is still significantly low. This phenomenon occurs in almost all countries worldwide including Malaysia.

The 1st WiSET was been successfully organized in year 2012, with the aim to identifying the challenges faced by women in science, engineering and technology (SET) ; has address the issues relating to Women in SET and sharing perspectives in devising strategies to address the imbalance of women participation in SET as to create opportunities upon which to build the future.

For WiSET2018, the objectives are:

- To engage, inspire and build next generation women in Science, Engineering and Technology;
- To empower women in Science, Engineering and Technology through entrepreneurship
- To energize future leaders and build excitement in STEM fields
- To promote globalization and integration amongst women in Science, Engineering and Technology

The anticipated participants of this conference would be Professionals with the career as Scientists, Engineers and Technologists. At this conference, inspiring experiences and the secret to success among Scientists, Engineers and Technologists will be shared. It would indeed be a platform where all Professionals would look forward to.

CONFERENCE THEME

The Conference theme is **GLOBAL OUTLOOK OF WOMEN IN SCIENCE, ENGINEERING & TECHNOLOGY**. The Sub Themes include:

INTRODUCTION TO IEM WOMEN ENGINEERS SECTION

The Institution of Engineers, Malaysia (IEM) was established in 1959 and its primary function is to promote and advance the science and profession of engineering in any or all its disciplines and to facilitate the exchange of information and ideas related to engineering.

IEM's mission:

- i. IEM shall promote sound professional engineering practice in support of the socio-economic development objectives of the nation.
- ii. IEM shall service the needs and interests of its members and the public and uphold the social standing and image of the engineering profession.
- iii. IEM shall contribute towards nation building and shall strive to enhance society's consciousness of science, engineering and technology.

The IEM Women Engineers Section (IEM WE) was formed in 2014 to cultivate all the talented women engineers around to express their desires and ideas to promote and advance the theory and practice of engineering, in line with IEM's objective. IEM WE will be organizing the "2nd International Conference of Women in Science, Engineering and Technology (WiSET 2018)" from **17th July to 19th July 2018**.

With the theme "Global Outlook of Women in Science, Engineering & Technology", the conference aims to engage, inspire and build next generation women in Science, Engineering and Technology. The conference's goal is to empower women in Science, Engineering and Technology through entrepreneurship, energize future leaders and build excitement in STEM fields. Overall, this event will promote globalization and integration amongst women in Science, Engineering and Technology. Women in Science, Engineering and Technology (WiSET) was a brainchild of Women Engineers Section, IEM and had its inaugural event in 2012.

KUALA LUMPUR CITY CENTRE

Kuala Lumpur (KL) is like a melting pot of all the wonderful cultures that make up Asia. As the capital of Malaysia, it epitomises the nation's slogan "simply Asia". From art to history to food, one's senses are embraced by the city's dynamic surroundings.

This is a majestic city that was founded in 1857 and now in the 21st Century it brings together the past, the present and the future. There is so much to see in Kuala Lumpur - Chinatown with charming old buildings and makeshift shops, then there's Little India while the Jamek Mosque which celebrates its centenary in 2014, is one of the oldest mosques in the city.

These historical landmarks blend in superbly with the modern day ones. The KL Tower is one of the world's tallest concrete structures which functions as a telecommunication tower. The skyline of Kuala Lumpur is dominated by a structure that is famous the world over - the tallest Twin Towers in the world known as the Petronas Towers.

If it's food that's your thing then KL is the place to be because this place is a feast for the senses and will tempt any taste bud from the many hawker centres through to some of the finest restaurants. Another activity that you could definitely look forward to is shopping in KL.

CONFERENCE VENUE

The Conference will be held at the Kuala Lumpur Convention Centre which is situated at the Kuala Lumpur City Centre, famously known as KLCC. Kuala Lumpur Convention Centre holds many local and international events throughout the year and it is well known in global market. For more information on the venue, please visit <http://www.klccconventioncentre.com>
